What's in the Box

Xda Mantle

AC charger for recharging your
Xda Mantle battery

Xda Mantle battery

Connection cable to connect your Xda Mantle to a PC for synchronising data and charging

Xda Mantle hands-free stereo headset

This booklet, your Quick Start Guide

Full User Manual available
on the Applications CD

Warranty card

Getting Started CD with Windows Mobile™ software

CD Contents include:

Microsoft® ActiveSync® 4.5 connectivity software, Microsoft Office Outlook® 2007 (60-day trial), GPRS Monitor, Sprite backup tool, Full User Manual.

Installing the SIM Card

To install the SIM card, slide the back cover latch to the right to unlock the back cover of your Xda Mantle and remove it. Then slide the SIM card door lock to the left and flip the door open. Next, insert the SIM card, then close and lock the SIM card door.

Inserting a SD™ card (this is not included in box).

The SD card slot is behind the rubber cover. Open the cover and then insert the SD card. Make sure the gold contacts are facing down and then close the cover. If you need to remove the SD card, simply press it and it will pop out of the slot.

The second SD card slot can be found on page 21. If you want to use a microSD™ card you need to use an adaptor (not supplied).

Installing and charging the battery

To install the battery, slide the back cover catch to the right to unlock the back cover of your Xda Mantle and remove it. Place the battery in the slot and replace the cover.

You will receive the new battery partially charged. So before you start using your Xda Mantle, you will need to fully charge the battery. Charge the battery by plugging in the AC adapter plug to an electrical outlet. Plug the USB end to the sync connector port at the bottom of the device.

The battery will be fully charged after about three hours.

Turning the device on or off

It's easy. Just press and hold the **Power** button for about three to five seconds. This will turn your Xda Mantle on or off. You'll see a message on the screen when it's switching off. Tap **Yes** to turn off the device.

Entering information

Remove the stylus from the back of the device and use it to input information onscreen. For more information, please refer to the Full User Manual.

Synchronising your Xda and PC

Mobile and PC

It's easy to synchronise your computer with your device. This enables you to keep information like contacts, tasks, and appointments up-to-date on your Xda Mantle.

Setting up synchronisation software on your PC

The synchronisation software you need will depend on your computers Operating System (OS).

Either use Microsoft ActiveSync® 4.5 (or later) or Windows Mobile® Device Centre to synchronise your device with your computer.

Setting up ActiveSync® on Windows XP

1. Install ActiveSync 4.5 on your PC from the Getting Started section of your in-box CD.
2. Connect your Xda Mantle to your computer. You'll see that the Synchronisation Set up Wizard automatically starts and will guide you to create a synchronisation partnership. Click **Next** to proceed.
3. To synchronise your device with your computer, clear the **Synchronise directly with a server running Microsoft® Exchange** check box and then click **Next**.
4. Select the information types that you want to synchronise, then click **Next**.
5. Click **Finish**.

Setting up Windows® Mobile Device Centre on Windows Vista®

1. Connect your device to your computer. Windows Mobile Device Centre will open. On the screen, click **Set up your device**.
2. Select the information you want to synchronise and click **Next**.
3. Type in a name for your Xda and click **Set Up**.

Using your Xda Mantle

Sending a text message

You can send short text messages (SMS) from your Xda Mantle to other mobile phones.

1. Tap **Start** > **Messaging** > **SMS/MMS**.
2. Tap **Menu** > **New** > **SMS**.
3. Enter the mobile phone number* in **To** and then write your message. Tap **Send**.
*Or tap **To** if you want to choose a contact from your SIM card or contacts list.

Making a call

To make a call, simply do one of the following:

1. Press the **Talk** button below the screen to open the Phone screen.
2. Tap the keys on the Phone screen to enter the first few digits of a phone number or the beginning letters of a contact name. This will immediately start to search your contacts.

To use your Xda Mantle hands-free, connect your device to the wired headset or Bluetooth® headset (not included). Please refer to the Full User Manual if you are unsure how to connect a Bluetooth headset to your Xda Mantle.

Personalising your Xda Mantle

You can personalise the screen appearance of your Xda Mantle. If you want to change the Today screen:

Tap **Start** > **Settings** > **Personal** tab > **Today**.

If you want to set the date and time:

Tap **Start** > **Settings** > **System** tab > **Clock & Alarm** > **Time** tab.

If you need to manage your power settings:

Tap **Start** > **Settings** > **System** tab > **Power** > **Advanced** tab.

Going online and surfing the Web

To get online, turn on Wi-Fi® on your device. If there is no Wi-Fi hotspot in your area, you can still connect to the Internet by using the GPRS or dial-up service of your wireless service provider. Please refer to the Full User Manual to learn how to connect using GPRS or dial-up settings. If you are using Wi-Fi:

1. Tap **Start > Programs > Comm Manager** and tap the **Wi-Fi** button.
2. Select the wireless network you want to connect to and tap **OK**.
3. Select The Internet and tap **Connect**.

Note: If you are connecting to a secured wireless network, you may first need to enter a key to get a network connection. Use Internet Explorer® Mobile (tap **Start > Internet Explorer**) to surf the Web.

Sending and receiving email

You can set up your Xda Mantle to send and receive emails using your preferred email service.

To send or receive email:

1. Tap **Start** > **Messaging** > **New Email Account**.
2. Type in your Email Address and tap **Next**.
3. If this doesn't work then manually enter the settings in the following screens.
4. Type in Your Name and Account. Tap **Next**.
5. Type in the User Name and Password for the email account. Tap **Next**.
6. Select the frequency to send and receive email. Tap **Finish**. You can also synchronise your device with your company's Microsoft Exchange server to receive work emails. Please refer to the Full User Manual if you want to access your company email account using your Xda Mantle.

Securing your Xda Mantle

You can protect your device from unauthorised access by using the SIM PIN, the device lock or the key lock.

A. To enable SIM PIN

You will first need to enter a password to enable the SIM PIN before you can use the phone features of the device.

To use the SIM PIN, tap **Start** > **Settings** > **Personal** tab > **Phone** and select **Require PIN** when phone is used.

B. To enable Fingerprint Sensor

The Xda Mantle features a fingerprint sensor which you can find on the lower side of the device.

To enter the Fingerprint Sensor set-up, tap **Start** > **Settings** tab > **Lock**. For further information, please refer to the Full User Manual.

Taking a picture

Use your Xda Mantle to take a picture.

1. Press the **Camera** button all the way in. The screen will automatically switch to landscape mode when you use the camera.
2. Tap the screen to change the camera settings.
3. Press **Enter** to take the shot. The camera comes with an autofocus function to capture sharp and crisp photos and videos of your subjects. You will need to either press the **Camera** button half-way or all the way to take a photo, depending on the option you have chosen in **Shoot Option**.

The Full User Manual that comes with your Xda Mantle offers a more complete guide.

Sending an MMS

The photos you take will be automatically saved after you shoot. Or you can choose to delete them in the Review screen. Press the  to send the photo via MMS or email. Please refer to the Full User Manual for a more complete guide.

A tour of your Xda Mantle

1. Earpiece

2. Navigation button

Press up, down, left, or right to move through menus and programme instructions. Press the centre of the navigation button to carry out the selection.

3. Left and right soft keys

Press to execute the command shown in the label above the button.

4. Talk button

Press to answer an incoming call or dial a number.

5. End button

Press to end a call or return to the Today screen.

6. Start button

Press to open the Start menu.

7. OK button

Press to confirm the OK option in the top right corner of the screen to confirm actions and close applications and screens.

8. Internet Explorer

Press to activate Internet Explorer.

9. Messaging button

Press to open the messaging application for text messages, multimedia messages and email.

10. Fingerprint sensor

11. Touch Screen

Tap the screen with the stylus to write, draw or select.

12. Status indicators

The Today screen displays important information, such as upcoming appointments and status indicators. Some of the status icons that you may see on your Xda Mantle are listed on pages 25-26.

13

14

15

13. Jog wheel

When in the Today screen or using applications, scroll up or down to navigate through menus and program instructions, then press the wheel to carry out selection. During a call or playing music, scroll up or down to adjust the volume. And when receiving an incoming call, scroll down to silence the ring tone.

14. Second OK button

15. Strap Holder

This lets you attach a strap for carrying your Xda Mantle.

16. Power button

Press to turn off the display temporarily. This will switch it to Sleep mode. You can still receive calls and messages when your Xda Mantle is in Sleep mode. Press and hold for about five seconds to turn off the power completely. This makes all the functions, including the phone, unavailable.

17. Comm manager

18. Second SD card slot

19. Camera button

Press to launch the camera and press again to take a photo or video clip, depending on the specified capture mode.

20. Stylus

You can use the stylus to write, draw or select items on the touch screen.

21. Speaker

22. GPS antenna connector

You can connect an external GPS antenna to get a better GPS signal.

23. 3 Megapixel autofocus camera

24. Back cover latch

25. Flash light

26. Back cover
